Quadron
scala consultants

Introduction

Quadron BV is the authorized dealer in The Netherlands for the iScala ERP software from Epicor|Scala. Quadron is located in Zeist and handles both the sale and the implementation of this software. iScala is used in The Netherlands by many national and, especially, internationally operating companies within the trade and industry sector.

Epicor|Scala originated from a merger, in 2004, between Scala Business Solutions and Epicor Software Corporation (NASDAQ: EPIC). Epicor|Scala is one of the top-10 leading ERP suppliers in the world and is represented in more than 140 countries.

Every consultant at Quadron has a deep knowledge of the iScala ERP software. In addition, they all have at least 15 years experience as IT specialist within the ERP field built up with national and international companies in a wide variety of sectors.

Quick implementation

Proven technology

Certainty

Clarity

iScala

iScala ERP software is extremely suitable for businesses that are, in one way or another, occupied with international activities. Epicor|Scala's *collaborative software* allows these businesses to gear their (international) business processes to one another in a clear and unambiguous manner. Local laws and regulations are also taken into account.

Implementation guaranteed

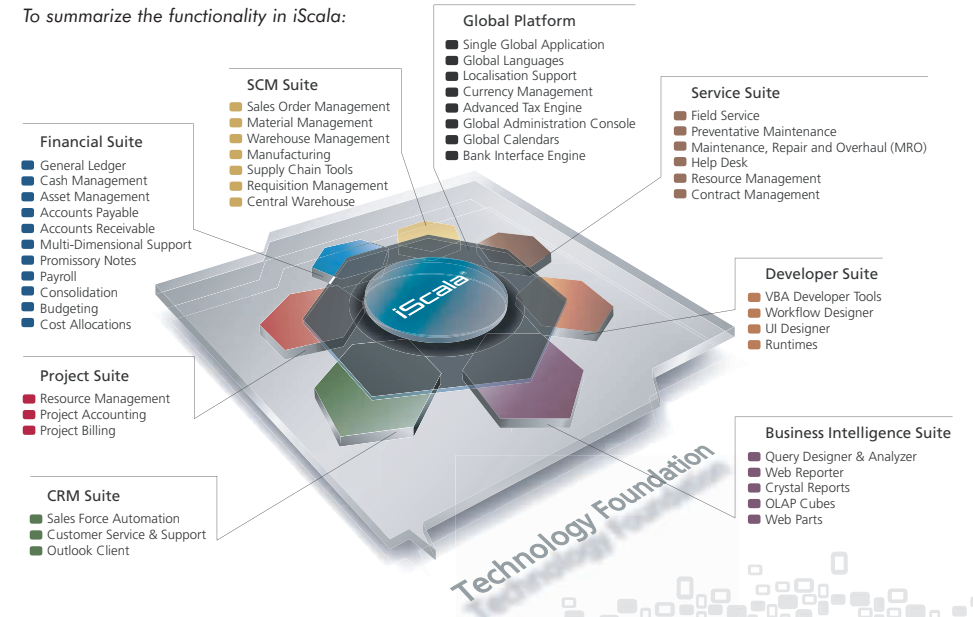

Quadron implements iScala with four guarantees:

- **Quick implementation:** maximum three to six months
- **Proven technology:** in more than 140 countries and 30 languages
- **Certainty:** local laws and regulations safeguarded
- **Clarity:** internationally identical approach

Training

Quadron can always provide accompanying training designed to meet the requirements of your organization. Personal training and advice as well as group training belong to the possibilities.

To summarize the functionality in iScala:

Quality guarantee

Quadron performs all its activities in close co-operation with the international Epicor|Scala organization. In this way Quadron continually tests its working practices against the *Signature* implementation methodology required by Epicor|Scala.

Other activities

In addition to the Scala consultancy activities Quadron, over the years, has built up practical experience in the following areas:

- Logistics advice
- Setting up Financial business administrations
- Customer information systems
- XML-EDI links
- Scanning software
- Web design
- Internet links with back office systems
